

# EXECUTIVE SUMMARY

This report provides a retrospective view of DSNG’s NDPE policy implementation progress. The information provided in this report communicates DSNG’s NDPE Policy commitment, performance and their plans going forward. The information also provides guidance for DSNG to reflect upon, identify challenges and adapt their approach for continuous improvement on the implementation of their policy.

We emphasize that this report predominantly informs progress relating to DSNG NDPE Implementation progress in the Wahau, Bengalon, and Karangan landscapes in East Kalimantan.

## NDPE Progress at a Glance (Wahau, Bengalon and Karangan landscapes)

In March 2020, DSNG defined a roadmap for achieving DSNG NDPE palm oil goals, including criteria and indicators to measure the progress. In the period of March to December 2020, significant progress was made to prepare DSN for implementation of the policy:

- Development of six NDPE related SOPs
- Policy socialisation, both internally and externally
- Pre-registration of External FFB suppliers.

Going forward, DSNG will continue to strengthen their effort to deliver and implement NDPE commitment to all its operations.

The summary of implementation progress in the Wahau, Bengalon and Karangan landscapes in 2020 is as shown below:
